

Hôtel Mimosas

Hotel Mimosas

Investor report, concise business plan and sale pitch

16 Lalla Abla Avenue, 85000 Tiznit | Hotel asset to complete and operate

Facade and visual identity of Hotel Mimosas

Address	Positioning	Digital	POI
16 Lalla Abla Avenue, 85000 Tiznit	Urban hotel + rooftop + restaurant	Multilingual website, Leaflet maps, gallery and 360 tour	37 mapped points of interest

1. Executive summary

Investment thesis

Mimosas is a hotel asset in Tiznit whose value is already visible: brand identity, furnished spaces, rooftop, restaurant, 360 tour, photo gallery, multilingual website and an urban location close to the medina flows. The buyer can acquire an advanced project, complete the final finishes and launch an operation focused on stays, restaurant, rooftop and local experience.

This is not positioned as an abstract real-estate promise, but as a hotel operating platform. A buyer should immediately understand the path: finish, classify, commercialize, open, measure and optimize.

2. Asset profile

Criterion	Investor reading
Commercial name	Hotel Mimosas
Address	16 Lalla Abla Avenue, 85000 Tiznit
GPS coordinates	29.694128, -9.723413
Concept	Urban hotel with rooftop, food and beverage spaces and short-stay or tourist-stopover potential.
Project status	Advanced potential asset: brand identity, visible spaces, photo content, virtual tour and website already prepared. Works, compliance and classification must be confirmed by technical audit.
360 tour URL	Mimosas/Tour/index.htm

3. Market and destination context

Morocco is benefiting from strong tourism momentum. Public figures from the Ministry of Tourism report 19.8 million visitors in 2025, up 14% versus 2024, and tourism receipts of MAD 138 billion in 2025.

Tiznit offers a distinctive alternative to saturated destinations: medina, ramparts, silver craft, proximity to Aglou, access to Souss Massa landscapes and a calm short-stay positioning.

- The rooftop creates revenue beyond accommodation: cafe, light dining, evenings, private events and local meetups.

4. Mimosas strengths

Strength	Commercial impact	Recommended action
Rooftop	Strong differentiation and revenue beyond rooms.	Create sunset, breakfast, cafe, tapas and private-event offers.
Restaurant / counter	Additional revenue and stronger guest experience.	Define a short, local, profitable and easy-to-run menu.
360 tour	Reduces investor and guest uncertainty.	Use it in the sale process, Google Business, the website and listings.

5. Visual dossier

The visuals show an already legible asset: identity, facade, reception, rooms, rooftop and restaurant.

Facade

Entrance

Room

Corridor

Bathroom

Rooftop

Restaurant

6. Concise business plan

Important

Precise figures must be finalized after audit: price, room count, remaining CAPEX, permits and pricing policy.

Pillar	Operating assumption	KPI
Accommodation	Direct sales + OTAs + local guests, diaspora, stopover travelers.	Occupancy, ADR, RevPAR
Rooftop	Cafe, brunch, sunset, tapas, private events.	Average ticket, covers, margin
Digital	Website, Google Business, WhatsApp, 360 tour, local SEO.	Traffic, enquiries, conversion

7. 90-day takeover plan

Phase	Goal	Actions
Days 1-15	Audit and secure	Technical, legal, compliance, safety and license audit.
Days 16-45	Final finishes	Rooms, lighting, plumbing, rooftop, kitchen, reception.
Days 46-90	Marketing and soft opening	Final photos, OTAs, Google Business, website, reviews.

8. Sale pitch

Pitch

Hotel Mimosas is a takeover opportunity for a high-potential hotel asset in Tiznit: an identifiable project with a rooftop, restaurant spaces, visual identity, multilingual website, 360 virtual tour and destination storytelling. The buyer does not start from zero: they acquire an advanced base, complete the final works, structure the operation and capture the value of an independent hotel in a heritage city between the medina, the Anti-Atlas and Aglou's coastline.

- Tangible asset: photos, spaces and identity are already visible.
- Multiple operating potential: rooms, rooftop, restaurant, events and local experiences.
- Commercial tools are ready: multilingual site, maps, points of interest, gallery and 360 tour.

9. Buyer due diligence points

- Confirm the exact number of operable rooms, surfaces, rooftop capacity and restaurant capacity.
- Cost the remaining CAPEX by trade: safety, plumbing, electricity, furniture, kitchen, signage, accessibility and classification.
- Verify permits, licenses, hotel compliance, insurance, taxation and land/legal status.

10. Conclusion

Mimosas' value lies in converting an advanced project into an operating asset. The ideal buyer is not simply purchasing walls or finishes: they are buying an address, a brand, high-potential spaces, a differentiated rooftop, a digital base and a local tourism story ready to be strengthened.
